SUNSHINE Coast business Box n Go is a new concept in residential and commercial storage.

Launched recently, Box n Go delivers room size storage boxes direct to a location, driveway or garage, and once packing is complete they take the box to their secure central Sunshine Coast storage facility. Then when the client is ready, Box n Go delivers the containers back to their door.

Box n Go is an accredited carbon neutral business and takes self-storage to a new, environmentally friendly level. The Carbon Reduction Institute has credited this eco conscious business a 'NoCO2' certification.

"We are the first carbon neutral storage business on the Sunshine Coast and possibly Queensland, so customers can be confident in the knowledge that all our products and services, including transport, storage boxes, rooms and supplies are all carbon neutral," said managing director Vicki Cameron.
